No Bamboo or Palm Fronds in Green Cart! Bamboo and palm fronds include a compound called lignin, similar to cellulose and is what make bamboo and palm fronds tough and wood-like. This material doesn't break down in the composting process. Please place in your LANDFILL CART.

Compostable Bags in GREEN CART? Yes, please use *"Bio Bag"* brand or any other *"BPI"* certified brand.

Extra Green Waste? Fill green cart first then use: Paper lawn bags, Garbage cans with handles/lids or Bundle or tie into manageable bundles.
